

About ECRI Institute

ECRI Institute, a not for profit organisation, dedicates itself to bringing the discipline of applied scientific research in healthcare to uncover the best approaches to improving patient care. As pioneers in this science for nearly 40 years, ECRI Institute marries experience and independence with the objectivity of evidence-based research.

More than 5,000 healthcare organisations worldwide rely on ECRI Institute's expertise in patient safety improvement, risk and quality management, healthcare processes, devices, procedures, and drug technology. ECRI Institute is one of only a handful of organizations designated as both a Collaborating Center of the World Health Organization and in the United States as an Evidence-based Practice Center by the Agency for Healthcare Research and Quality. ▷ HEALTHCARE PRODUCT
COMPARISON SYSTEM
NEW HPCS

LEARN what's on the market worldwide
SELECT the models of your choice instantly
CREATE model specific comparison charts
NEW-EXPORT data into Excel spreadsheets -
Create custom tender documents (RFP's)
... in the blink of an eye

Streamline your decision making process by comparing thousands of brand named products using custom comparison charts covering hospital, laboratory, imaging and radiology equipment, Understand what's on the market, how the technology works and the issues surrounding best choice. Rapidly find the best product on the market that meets your needs, saving hours of searching Quickly choose and compile model specification data can and export directly into an Microsoft® Excel spreadsheet.

3. CREATE YOUR OWN MODEL SPECIFIC CHARTS USING THE POWERFUL NEW HPCS FEATURES

The enhanced Comparison Charts now included a number of NEW features giving much greater

functionality.

- ▶ Photographs above each model with additional enlarged images
- ▶ Supplier Contact Information for all the locations of the supplier direct from ECRI Institute's Sourcebase database
- ▶ Product Literature and Cut Sheets instantly downloadable from the manufacturer
- ▶ ECRI Institute's TOP 5 Recommended Specification together with their rationale.
- ▶ Produce Custom Tender Documents from the template tool.

4. EXPORT TO TO MS EXCEL

All your model specification or manufacturer contact information can be instantly exported to an Excel spreadsheet for manipulation and circulation using the data you have selected from selected specification charts.

5. GENERATE CUSTOM TENDERS (RFP'S)

Using the basic RFP (request for proposals) template tool, develop your own custom proposal from the comparison chart and your own personal data. Transmit your personal RFP data direct to the manufacturer for completion of your proposal.
